## Nordstrom Reports Total Sales Growth of 6.6\% and Comparable Sales Increase of 0.9\%

November 12, 2015

## Third Quarter 2015 Earnings Included \$0.15 EPS Reduction Related to its Credit Card Portfolio Sale

SEATTLE--(BUSINESS WIRE)--Nov. 12, 2015-- Nordstrom, Inc. (NYSE: JWN) today reported earnings per diluted share of $\$ 0.42$ for the third quarter ended October 31, 2015. This included a reduction in earnings per diluted share of $\$ 0.15$, which primarily represented transaction costs associated with the closing of its credit card portfolio sale.

The Company's third quarter performance was below Company expectations, reflecting softer sales trends that were generally consistent across channels and merchandise categories. Total Company net sales increased 6.6 percent and comparable sales increased 0.9 percent, compared with the same period last year. On a year-to-date basis, total Company net sales increased 8.5 percent and comparable sales increased 3.5 percent.

The Company is executing its customer strategy through multiple growth initiatives to enhance the customer experience and reach more customers. During the third quarter, the Company opened three new full-line stores, including its first international flagship store in Vancouver, B.C., relocated a full-line store and opened 16 new Rack stores.

## FINANCIAL IMPACT OF CREDIT CARD TRANSACTION

On October 1, 2015, the Company sold its credit card portfolio to TD Bank U.S.A., N.A. (TD) for $\$ 2.2$ billion. The Company is deploying net proceeds of $\$ 1.8$ billion, after $\$ 325$ million in debt reduction and transaction costs, directly to shareholders consistent with its balanced capital allocation approach. On October 27, 2015, the Company paid a special cash dividend of $\$ 900$ million, or $\$ 4.85$ per share of outstanding common stock. In addition, the Company expects to initiate share repurchase for the remaining net proceeds beginning in the fourth quarter.

For fiscal 2015, the Company estimates a reduction in earnings before interest and taxes of approximately $\$ 28$ million, or earnings per diluted share of approximately $\$ 0.08$, related to the credit card transaction. For fiscal 2016, the Company estimates the net financial impact, including the share repurchase impact, to be approximately neutral to earnings per diluted share.

## THIRD QUARTER SUMMARY

- Third quarter net earnings were $\$ 81$ million and earnings before interest and taxes were $\$ 155$ million, or 4.8 percent of net sales, compared with net earnings of $\$ 142$ million and earnings before interest and taxes of $\$ 262$ million, or 8.6 percent of net sales, during the same period in fiscal 2014.
- This included a reduction in earnings before interest and taxes of approximately $\$ 46$ million, related to the credit card transaction.
- In addition, the impact of the Trunk Club acquisition and the ongoing entry into Canada represented an incremental reduction to earnings before interest and taxes of $\$ 20$ million relative to last year.
- Total Company net sales of $\$ 3.2$ billion for the third quarter increased 6.6 percent compared with net sales of $\$ 3.0$ billion during the same period in fiscal 2014. Total Company comparable sales for the third quarter increased 0.9 percent.
- Nordstrom comparable sales, which consist of full-line stores and Nordstrom.com, increased 0.3 percent. The top-performing merchandise category was Cosmetics. In addition, coats, younger customer-focused departments and dresses continued to reflect strength in Women's Apparel.
- Full-line net sales of $\$ 1.6$ billion decreased 1.9 percent and comparable sales decreased 2.2 percent compared with the same period last year. The Northwest and Southern California were the top-performing geographic regions.
o Nordstrom.com net sales increased 11 percent, reflecting continued expansion of merchandise selection.
- Net sales in the off-price business increased 12 percent compared with the same period last year.
o Nordstrom Rack net sales of $\$ 0.9$ billion increased 8.4 percent while comparable sales decreased 2.2 percent, compared with the same period in fiscal 2014.
o Nordstromrack.com/HauteLook net sales increased 39 percent, continuing to outperform expectations.
- Gross profit of $\$ 1.1$ billion, or 33.9 percent of net sales, decreased 163 basis points compared with the same period in fiscal 2014, primarily due to higher markdowns in addition to the planned impact of higher occupancy costs related to store growth and the increased mix of Nordstrom Rack.
- Ending inventory increase of 8.0 percent was in-line with the increase in net sales of 6.6 percent.
- Selling, general and administrative expenses of $\$ 1.0$ billion, or 30.8 percent of net sales, increased 68 basis points compared with the same period in fiscal 2014. The increase was in-line with expectations, reflecting growth initiatives related to Trunk Club and Canada in addition to higher fulfillment costs associated with online growth.
- The Nordstrom Rewards loyalty program continues to contribute to overall results, with members shopping more frequently and spending more on average than non-members. The Company opened approximately 260,000 new accounts in the third quarter. With 4.6 million active members, sales from members increased 8 percent in the third quarter and represented 38 percent of sales.
- On October 1, 2015, Nordstrom's board of directors authorized an additional $\$ 1.0$ billion share repurchase program. During the third quarter, the Company repurchased 3.5 million shares of its common stock for $\$ 250$ million. A total of $\$ 1,486$ million remains available under its existing share repurchase board authorizations. The actual number, price, manner and timing of future share repurchases, if any, will be subject to market and economic conditions and applicable Securities and Exchange Commission ("Commission") rules.
- Return on invested capital (ROIC) for the 12 months ended October 31, 2015 was 11.4 percent compared with 13.1 percent in the prior 12-month period. This decrease reflected ongoing store expansion and increased technology investments in addition to the acquisition of Trunk Club. A reconciliation of this non-GAAP financial measure to the closest GAAP measure is included below.

## Credit

On October 1, 2015, we completed the sale of substantially all of our U.S. Visa and private label credit card portfolio to TD. The related credit card receivables are no longer reported on our Condensed Consolidated Balance Sheets. However, we continue to receive a substantial portion of revenue generated by the credit card portfolio.

Prior to the close of the credit card receivable transaction, our Credit business earned finance charges, interchange fees, late fees and other revenue through operation of the Nordstrom private label and Nordstrom Visa credit cards. Following the close of the credit card receivable transaction, and under the new program agreement with TD, we receive a substantial portion of revenue generated by the credit card portfolio owned by TD. We recorded certain assets that amortize and deferred revenues that we recognize when earned during the program agreement.

In the second quarter of 2015 , we reclassified substantially all of our U.S. Visa and private label credit card receivables from "held for investment" to "held for sale" and, as such, recorded these receivables at the lower of cost (par) or fair value. Due to this classification change, the allowance on these receivables of $\$ 64$ was reversed during the quarter ended August 1,2015 as the fair value of these receivables was greater than cost.

The following tables summarize the results of our Credit business for the quarter and nine months ended October 31, 2015 compared with the same period in 2014:

## RETURN ON INVESTED CAPITAL (NON-GAAP FINANCIAL MEASURE)

(unaudited; dollar amounts in millions)
We believe ROIC is a useful financial measure for investors in evaluating the efficiency and effectiveness of our use of capital and believe ROIC is an important component of shareholders' return over the long term. In addition, we incorporate ROIC in our executive incentive compensation measures. For the 12 fiscal months ended October 31, 2015, our ROIC decreased to $11.4 \%$ compared with $13.1 \%$ for the 12 fiscal months ended November 1, 2014, primarily due to ongoing store expansion and increased technology investments in addition to the acquisition of Trunk Club.

ROIC is not a measure of financial performance under generally accepted accounting principles ("GAAP") and should be considered in addition to, and not as a substitute for, return on assets, net earnings, total assets or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to ROIC is return on assets. The following is a reconciliation of the components of ROIC and return on assets:

| Return on assets | $\mathbf{7 . 2}$ | $\%$ | 8.4 | $\%$ |
| :--- | :--- | :--- | :--- | :--- |
| ROIC | 11.4 | $\%$ | 13.1 | $\%$ |

${ }^{1}$ Capitalized operating leases is our best estimate of the asset base we would record for our leases that are classified as operating if they had met the criteria for a capital lease, or we had purchased the property. Asset base is calculated as described in footnote 5 below.
${ }^{2}$ Based upon our effective tax rate multiplied by the net operating profit for the 12 fiscal months ended October 31, 2015 and November 1, 2014.
${ }^{3}$ Based upon the trailing 12-month average.
${ }^{4}$ Based upon the trailing 12-month average for accounts payable, accrued salaries, wages and related benefits, and other current liabilities.
${ }^{5}$ Based upon the trailing 12-month average of the monthly asset base. The asset base for each month is calculated as the trailing 12 months of rent expense multiplied by eight. The multiple of eight times rent expense is a commonly used method of estimating the asset base we would record for our capitalized operating leases described in footnote 1.

## ADJUSTED DEBT TO EBITDAR (NON-GAAP FINANCIAL MEASURE)

(unaudited; dollar amounts in millions)
Adjusted Debt to earnings before interest, income taxes, depreciation, amortization and rent ("EBITDAR") is one of our key financial metrics, and we believe that our debt levels are best analyzed using this measure. Our goal is to manage debt levels to maintain an investment-grade credit rating and operate with an efficient capital structure. In evaluating our debt levels, this measure provides a reflection of our credit worthiness that could impact our credit rating and borrowing costs. We also have a debt covenant that requires an adjusted debt to EBITDAR leverage ratio of less than four times. As of October 31, 2015 and November 1, 2014, our Adjusted Debt to EBITDAR was 2.1.

Adjusted Debt to EBITDAR is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, debt to net earnings, net earnings, debt or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Adjusted Debt to EBITDAR is debt to net earnings. The following is a reconciliation of the components of Adjusted Debt to EBITDAR and debt to net earnings:

|  | $\mathbf{2 0 1 5}$ | $\mathbf{2 0 1 4}$ |
| :--- | :--- | :--- |
|  |  |  |
| Debt | $\mathbf{\$ 2 , 8 0 9}$ | $\$ 3,127$ |
| Add: estimated capitalized operating lease liability ${ }^{2}$ | $\mathbf{1 , 3 2 0}$ | 1,068 |
| Less: fair value hedge adjustment included in long-term debt | $(\mathbf{2 6}$ | ) |
| Adjusted Debt | $\mathbf{\$ 4 , 1 0 3}$ | $\$ 4,156$ |
|  |  |  |
| Net earnings | $\mathbf{\$ 6 7 5}$ | $\$ 732$ |
| Add: income tax expense | $\mathbf{4 3 8}$ | 458 |
| Add: interest expense, net | $\mathbf{1 2 9}$ | 155 |
| Earnings before interest and income taxes | $\mathbf{1 , 2 4 2}$ | 1,345 |
|  |  |  |
| Add: depreciation and amortization expenses | $\mathbf{5 5 7}$ | 498 |
| Add: rent expense | $\mathbf{1 6 5}$ | 133 |
| Add: non-cash acquisition-related charges | $\mathbf{1 3}$ | 8 |
| EBITDAR | $\mathbf{\$ 1 , 9 7 7}$ | $\$ 1,984$ |
|  |  |  |
| Debt to Net Earnings | $\mathbf{4 . 2}$ | 4.3 |
| Adjusted Debt to EBITDAR | $\mathbf{2 . 1}$ | 2.1 |

${ }^{1}$ The components of Adjusted Debt are as of October 31, 2015 and November 1, 2014, while the components of EBITDAR are for the 12 months ended October 31, 2015 and November 1, 2014.
${ }^{2}$ Based upon the estimated lease liability as of the end of the period, calculated as the trailing 12 months of rent expense multiplied by eight. The multiple of eight times rent expense is a commonly used method of estimating the debt we would record for our leases that are classified as operating if they had met the criteria for a capital lease or we had purchased the property.

## FREE CASH FLOW (NON-GAAP FINANCIAL MEASURE)

(unaudited; amounts in millions)
Free Cash Flow is one of our key liquidity measures, and when used in conjunction with GAAP measures, provides investors with a meaningful analysis of our ability to generate cash from our business. For the nine months ended October 31, 2015, we had negative Free Cash Flow of $\$(188)$ compared with \$(357) for the nine months ended November 1, 2014.

Free Cash Flow is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, operating cash flows or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Free Cash Flow is net cash provided by operating activities. The following is a reconciliation of net cash provided by operating activities to Free Cash Flow:

## Nine Months Ended
