NORDSTROM, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED APRIL 30, 1998 AND 1997
(dollars in thousands)
(unaudited)

Note 1 - Basis of Presentation

The consolidated balance sheets of Nordstrom, Inc. and subsidiaries (the "Company") as of April 30, 1998 and 1997, and the related consolidated statements of earnings and cash flows for the periods then ended, have been prepared from the accounts without audit.

The consolidated financial information is applicable to interim periods and is not necessarily indicative of the results to be expected for the year ending January 31, 1999.

It is not considered necessary to include detailed footnote information as of April 30, 1998 and 1997. The financial information should be read in conjunction with the Notes to Consolidated Financial Statements contained in the Nordstrom 1997 Annual Report to Shareholders.

In the opinion of management, the consolidated financial information includes all adjustments (consisting only of normal, recurring adjustments) necessary to present fairly the financial position of Nordstrom, Inc. and subsidiaries as of April 30, 1998 and 1997, and the results of their operations and cash flows for the periods then ended, in accordance with generally accepted accounting principles applied on a consistent basis.

Certain reclassifications of prior year balances have been made for consistent presentation with the current year.

Note 2 - Earnings Per Share

Basic earnings per share are computed on the basis of the weighted average

number of common shares outstanding during the period. Average shares outstanding for the first quarter were 75,110,335 and 78,579,511 in 1998 and 1997.

Diluted earnings per share are computed on the basis of the weighted average number of common shares outstanding during the period plus dilutive common stock equivalents consisting of shares subject to stock options. Average shares outstanding including dilutive shares for the first quarter were 75,379,272 and 78,640,743 in 1998 and 1997.

Options with an exercise price greater than the average market price are not included in the computation of diluted earnings per share. For the first quarter in 1998 and 1997 there were 146,971 and 1,037,038 options with an exercise price greater than the average price.

Note 3 - New Accounting Rules

In March, 1998 the Accounting Standards Executive Committee of the AICPA issued Statement of Position 98-1 ("SOP 98-1"), "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use", which requires that certain software costs be capitalized and amortized over the period of use. The Company adopted SOP 98-1 during the quarter ended April 30, 1998, which resulted in an increase in earnings after taxes of \$1.7 million (\$.02 per share).

As of February 1, 1998, the Company has adopted Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income," which establishes standards for the reporting and display of comprehensive income and its components. Adoption of this standard had no material effect on the Company's consolidated financial position, results of operations or cash flows.

The Financial Accounting Standards Board has issued SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information," which establishes reporting and disclosure standards for an enterprise's operating segments and SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits," which revises employers' disclosures about pension and other postretirement benefit plans. Both statements are effective for the Company's fiscal year ending January 31, 1999. Adoption of these standards will not impact the Company's consolidated financial position, results of operations or cash flows, and any effect will be limited to the form and content of its disclosures.

Note 4 - Credit Card and Financing Subsidiaries

The summarized combined results of operations of Nordstrom Credit, Inc. and Nordstrom National Credit Bank are as follows:

	-----	-----

Earnings before income taxes	13,798	11,643
Net earnings	8,782	7,373

Note 5 - Stockholders' Equity

Note 6 - Subsequent Event

On May 19, 1998, the Company's Board of Directors approved a two-for-one stock split on the Company's common stock. One additional share will be issued for each share of common stock held by shareholders of record as of the close of business on June 8, 1998. New shares will be distributed on June 30, 1998.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Management Discussion and Analysis section of the Nordstrom 1997 Annual Report to Shareholders.

Results of Operations:

During the first quarter of 1998, sales increased 9.1% when compared with the same quarter in 1997. Sales for comparable stores increased 0.2% during the quarter, with the remainder of the increase coming from new units and from the Company's direct sales catalog division. Early in the quarter, comparable store sales were negatively affected by heavy rains in California. Comparable store sales showed improvement in April, partially due to Easter falling in the month of April in the current year compared to March in the prior year.

Cost of sales and related buying and occupancy costs decreased as a percentage of sales for the quarter as compared to the corresponding period in 1997. The decrease was due primarily to higher merchandise margins resulting from an improvement in the mix of merchandise styles and sizes in the full-line stores. Buying costs also decreased due to efficiencies gained through restructuring of certain buying responsibilities.

Selling, general and administrative expenses increased as a percentage of sales when compared to the same quarter in 1997 due to several factors. There were two full-line store openings during the quarter, compared to no store openings in the first quarter of 1997. Expenses increased due to spending on system development projects and computer equipment, and higher sales promotion costs for the Company's direct sales catalog division than in the corresponding period of 1997. Additionally, the Company incurred higher expenses to support implementation of the Company's value-based management program. These increases were partially offset by decreased employee benefit costs and credit expenses.

Interest expense increased as a percentage of sales when compared to the same quarter in 1997 due primarily to higher levels of long-term debt outstanding during the quarter.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONT.)

Financial Condition:

- -----
The Company's working capital increased at April 30, 1998 when compared to April 30, 1997 due primarily to a decrease in notes payable and the current portion of long-term debt.

In March 1998, the Company issued \$300 million of 6.95% Senior Debentures due 2028. Proceeds from the issue were used to repay short-term debt and repurchase the Company's common stock.

In February 1998, the Company completed a repurchase of \$100 million of its outstanding common stock as approved by the Board of Directors at its February 1997 meeting. Also, the Company purchased \$100.6 million during the quarter of a \$400 million stock repurchase program authorized in February, 1998.

During the quarter ended April 30, 1998, the Company opened full-line stores at Perimeter Mall in Atlanta, Georgia and Oak Park Mall in Overland Park, Kansas. The Company also opened a Rack at Tanasbourne Towne Center in Hillsboro, Oregon. On May 8, 1998, a new Rack was opened at the Mall of America in Bloomington, Minnesota. Construction is progressing as planned on new stores scheduled to open later this year and in 1999.
