PROXY STATEMENT

APPROXIMATE
MAILING DATE:
MARCH 31, 1997

This Proxy Statement is furnished to the Shareholders of Nordstrom, Inc. (the "Company") in connection with the solicitation of proxies by the Board of Directors for use at the Annual Meeting of Shareholders to be held on May 20, 1997 and any adjournment thereof. If the enclosed Proxy is executed and returned, it will be voted in accordance with the instructions given, but may be revoked at any time insofar as it has not been exercised by notifying the Secretary of the Company in writing (such notification to be directed to the Company's offices at 1501 Fifth Ave., Seattle, WA 98101-1603). Each Proxy will be voted for Proposals 1, 2 and 3 and may be voted on such other matters as may properly come before the meeting if no contrary instruction is indicated in the Proxy.

There were 78,557,335 shares of Common Stock, the only security of the Company entitled to vote at the meeting, outstanding at March 20, 1997, the record date for the Annual Meeting of Shareholders. Shareholders are entitled to one vote for each share of Common Stock held of record at the close of business on March 20, 1997. Under Washington law and the Company's Articles of Incorporation, a quorum consisting of a majority of the shares eligible to vote must be represented in person or by proxy to elect directors and to transact any other business that may properly come before the meeting. For election of directors, the nominees elected will be those receiving the greatest number of votes cast by the shares entitled to vote, up to the number of directors to be elected. Any action other than a vote for a nominee will have the effect of voting against the nominee. The Nordstrom, Inc. 1997 Stock Option Plan will be approved and the appointment of auditors will be ratified if the votes cast in favor of the respective action exceed the votes cast against it. Abstentions and nonvotes by brokers will have no effect since such actions do not represent votes cast by Shareholders.

COMPENSATION AND STOCK OPTION COMMITTEE REPORT ON FISCAL YEAR 1996 EXECUTIVE COMPENSATION

The Compensation and Stock Option Committee is comprised of five directors, and is responsible for setting compensation levels for the Chairman of the Board of Directors, the Co-Presidents and the Executive Vice Presidents of the Company. The Committee also consults with the Chairman and the Co-Presidents with respect to

the compensation and benefits for other officers and with respect to the benefits for certain other employees of the Company.

COMPENSATION PHILOSOPHY

The Company bases different portions of its executive compensation program on differing measures of Company performance and Shareholder value. The Company believes that focusing on performance measures based solely on short-term changes in stock price or on performance measures based solely on Company data, such as sales increases or earnings per share, will not necessarily increase the long-term return to Shareholders. As a result, the Company's compensation program currently reflects the following themes:

- Compensation should play a critical role in attracting and retaining executives whom the Company deems most able to further its goals.
- A material portion of compensation should be meaningfully related to Company performance and value created for Shareholders.
- Medium and long-term Company performance and value created for Shareholders should be measured by a mix of factors, including increases in Company stock price, sales increases, earnings per share and other performance related value drivers which will or should increase shareholder return.
- Since the Company has chosen a team to oversee the operations of the Company, compensation opportunities for the Co-Presidents, who manage specific areas of the Company's business, and the Chairman, who oversees the overall operations of the Company, should be based on the team's effort and performance of the Company as a whole.

The Company also considers Section 162(m) of the Internal Revenue Code, which limits to \$1 million per year the compensation expense deduction the Company may take with respect to the executive officers named in the Summary Compensation Table. The Company is submitting its 1997 Stock Option Plan for Shareholder approval in part to comply with regulations

11

promulgated under Section 162(m) to qualify that plan under the performance-based compensation exception to the expense deduction limit. Based on current levels of other compensation available to the executive officers named in the Summary Compensation Table, the Company believes there is no risk of exceeding the \$1 million amount for any of those officers.

The Committee periodically reviews its compensation philosophy and overall compensation structure. In fiscal 1997, the Committee engaged two outside consultants to counsel the Committee regarding the possibility of aligning the Company's executive compensation structure with additional or different financial measurement criteria from those the Committee has traditionally used to determine executive compensation. The Committee will consider these recommendations during fiscal 1997 for possible use in future compensation decisions. The Committee is currently discussing with management how it perceives other shareholder value driver criteria which may be more closely tied to total shareholder return and how those criteria might be utilized in the compensation system.

PAY MIX AND MEASUREMENT

The Company's executive compensation program is based on three components, each of which furthers a differing objective, but all of which together are intended to serve the Company's overall compensation philosophy.

BASE SALARY. The Committee reviews the competitive median base salaries for competitors in the specialty retailing field, including companies listed in Standard & Poor's Retail Store Composite referenced in the Performance Graph on page 15. The executive structure of most of these companies does not lend itself readily to direct comparison with the Company and its practice of choosing a team to manage the business of the Company. With attendant shared responsibilities, the Company has chosen to set base salary levels for individuals in this team at levels which are generally not as high as that of its competitors with a single chief executive officer. Although the Company has informally labeled the Chairman as its chief executive officer to provide disclosure requiring that designation, the Co-Presidents share certain duties with the Chairman that would otherwise be included in the duties of a true chief executive officer.

Base salary increases or decreases are established on an annual basis and are based on the Committee's view of how the management team and the respective individuals contribute to the overall performance of the Company. Overall performance of the Company is measured by a number of factors including the Company's earnings, its performance in the real or perceived retail environment and competitive conditions, performance versus budget, growth in accounts receivable, improvement in gross margins and the Committee's assessment of management skills. None of these factors is

12

given greater weight than any other factor. The Committee's review of salary information for competitors also enables it to observe what changes have occurred, if any, in competitors' base salaries.

ANNUAL BONUS INCENTIVES. This incentive is intended to reflect the Company's belief that management's contribution to medium and long-term Company performance comes, in part, from maximizing Company earnings per share, division sales, inventory turn and gross margins. Annual bonus incentives for the Chairman, the Co-Presidents and the Executive Vice President who acts as the Chief Financial Officer are based solely on specified earnings per share target amounts. Annual bonus incentives for the other Executive Vice Presidents are based on various combinations of earnings per share, division sales, inventory turn, gross margin and expense control targets. The amount of the respective bonuses is based on these targets which, in turn, relate to pre-established percentages of the respective base salaries. Under this plan, executive officers do not receive any bonus incentives until the applicable minimum specified performance target is achieved. Bonuses for fiscal year 1996 were paid only to those executive officers who were subject to division sales, inventory turn and gross margin targets. The performance targets have not been waived for purposes of these bonus incentives for any year covered by the Summary Compensation Table.

LONG-TERM INCENTIVES. STOCK OPTIONS. The Company has options outstanding under the 1987 Stock Option Plan, which expires in August 1997. The 1987 Stock Option Plan is administered by the Committee. The Committee proposed to the Board the 1997 Stock Option Plan and, if approved by the Shareholders, that Plan will also be administered by the Committee, four members of which are considered "outside" directors within the meaning of Section 162(m)

of the Internal Revenue Code and "non-employee" directors under Rule 16b-3 of the Securities Exchange Act of 1934. The member of the Committee who is not considered an "outside" or "non-employee" director abstains from any action taken by the Committee with respect to options granted to those executive officers who may be named in the Summary Compensation Table.

The option incentive component of the total compensation package is intended to retain and motivate executives to increase total return to the Shareholders. Stock options have been granted at the fair market value of the Company's Common Stock and will only have value if the Company's stock price increases from the time of the award. Vesting of options occurs only during employment with the Company upon each anniversary of the award, with full vesting generally after the fourth year following an award. The number of stock options granted to the executive officers named in the Summary Compensation Table has been determined by the Committee pursuant to a formula used for all plan participants, without reference to the number of stock options granted previously. Pursuant to the formula, the number of option shares granted corresponds to the number of underlying

13

Company shares that would produce a value equal to 50% of the participant's yearly salary, assuming an annual 12% growth rate in the Company's Common Stock price over a five-year period. Stock options have been granted semiannually in May and November, with one half of the formula value of the option award granted each time. Since the formula is keyed to salary, the performance factors discussed in the Base Salary paragraph also would apply to this compensation component. The Committee reserves the right to change or eliminate the formula at any time.

RETIREMENT. The Nordstrom Profit Sharing Retirement Plan covers all regular employees of the Company and its subsidiaries, including the executive officers named in the Summary Compensation Table. The Board of Directors determines annually an amount to be contributed by the Company to the Retirement Plan. Allocation of the Company's contribution to each participant's account is pro rata, based on one unit of credit for each year of service and one unit of credit for each \$100 of compensation. For purposes of this latter calculation, compensation is limited to \$150,000 for calendar year 1996.

SAVINGS. Pursuant to the Nordstrom Employee Deferral Retirement Plan, employees may elect to have the Company pay from 1% to 10% of the employee's compensation, up to a maximum of \$9,500 for calendar year 1996, to the Retirement Plan instead of paying that amount to the employee. The Company matches 50% of the employee's contribution up to 6% of the employee's compensation. Monies in the account are invested at the direction of the employee among one or more of six funds, one of which consists of Common Stock of the Company. Distributions are made at normal retirement or earlier termination of employment, and for terminal illness, disability or hardship.

The Nordstrom Supplemental Executive Retirement Plan provides retirement benefits to certain executives and key employees of the Company. This Plan is described in the note to the Pension Plan Table above.

COMPENSATION OF THE
CHIEF EXECUTIVE
OFFICER

The base salary for the chief executive officer is determined by the Committee and is based on overall

Company performance. That performance is measured by a number of factors including the Company's earnings, real or perceived retail environment and competitive conditions, performance versus budget, growth in sales, improvement in gross margins and the Committee's assessment of management skills. None of these factors is given greater weight than any other factor. The base salaries of the Chairman and the former Co-Chairman were not changed in 1996, reflecting the absence of any improvement in the Company's financial performance over the previous year. The annual bonus incentives for the Chairman and former Co-Chairman were based solely on earnings per share targets as previously described. Those earnings per share targets were not met and the Chairman and the former Co-

14

Chairman did not receive any bonus for fiscal year 1996. The Chairman and the former Co-Chairman received stock options during fiscal year 1996 pursuant to the formula used for all Stock Option Plan participants as previously described.

PROPOSAL 2:
APPROVAL OF THE 1997
STOCK OPTION PLAN

The Company has granted stock options to its employees since 1977 under the 1977 and 1987 Stock Option Plans. The 1977 Stock Option Plan expired in August 1987 and the current plan expires in August 1997. If approved by Shareholders, the Nordstrom, Inc. 1997 Stock Option Plan (the "Plan") would enable the Company to continue its practice of granting stock options as one element of its compensation program. The following is a summary of the Plan, a complete copy of which has been filed with the Commission as an appendix to this proxy statement.

PURPOSE

The purposes of the Plan are to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to employees of the Company or any of its subsidiaries, and to promote the success of the Company's business.

SHARES SUBJECT TO PLAN

There are 5,000,000 shares of Common Stock authorized for nonqualified and incentive stock option grants and for grants of restricted shares of Common Stock under the Plan, which are subject to adjustment in the event of stock splits, stock dividends and other situations.

EMPLOYEE PARTICIPANTS

Participants in the Plan include any employee of the Company or any parent or subsidiary of the Company and are selected by the Compensation and Stock Option Committee, or a subcommittee thereof (the "Committee"). The Company estimates there are approximately 265 persons who would currently be eligible to participate in the Plan. The Plan provides that no

16

participant may be granted in any year more than 50,000 shares of restricted stock, or options to purchase more than 50,000 shares of Common Stock, as adjusted as provided in the Plan.

ADMINISTRATION

The Committee shall either (i) consist solely of two or more non-employee directors of the Company as defined in Rule 16b-3 under the Securities Exchange Act of 1934, as amended, or (ii) cause any director who is not a non-employee director to abstain from any action by the Committee related to granting options to executive officers of the Company. The Board of Directors may also appoint one or more separate committees of the Board of Directors which may administer the Plan with respect to employees who are not executive officers of the Company.

The Board of Directors may amend or terminate the Plan as

desired, without further action by the Company's shareholders, except to the extent required by applicable law.

TERMINATION

The Plan will continue in effect until all shares of stock available for grant have been acquired through exercise of options or otherwise, or for a term of ten (10) years from its effective date, whichever is earlier. The Plan may be terminated at such earlier time as the Board of Directors may determine. Termination of the Plan will not affect the rights and obligations arising under restricted stock or options granted under the Plan and then in effect.

TERMS OF STOCK OPTIONS

The Committee may grant incentive stock options as defined in Section 422 of the Internal Revenue Code of 1986, as amended, and non-qualified stock options. Options granted pursuant to the Plan need not be identical but each option is subject to certain terms and conditions of the Plan. The exercise price under each option is established by the Committee. The exercise price may be paid as determined by the Committee. Options granted expire within a period of not more than ten (10) years from the grant date. Options shall be exercisable in such manner and at such times as the Committee may determine. The Committee, may, at any time prior to exercise and subject to consent of the participant, amend, modify or cancel any option previously granted and may or may not substitute in their place options at a different price and of a different type under different terms or in different amounts.

TERMS OF RESTRICTED STOCK

The Committee may grant shares of restricted Common Stock of the Company with such terms and conditions as may be determined by the Committee. Grants of shares of restricted stock shall be made at such cost as the Committee shall determine and may be issued for no monetary

17

consideration, subject to applicable state law. Shares of restricted stock shall be issued and delivered at the time of the grant or as otherwise determined by the Committee, but shall be subject to forfeiture until provided otherwise in the applicable restricted stock agreement. Each certificate representing shares of restricted stock shall bear a legend referring to the risk of forfeiture of the shares and stating that such shares are nontransferable until all restrictions have been satisfied and the legend has been removed. At the discretion of the Committee, the grantee may or may not be entitled to full voting and dividend rights with respect to all shares of restricted stock from the date of grant.

FEDERAL INCOME TAX CONSEQUENCES

The following discussion of the federal income tax consequences of the Plan is intended to be a summary of applicable federal law. State and local tax consequences may differ. Because the federal income tax rules governing options and related payments are complex and subject to frequent change, optionees are advised to consult their tax advisors prior to exercise of options or dispositions of stock.

Incentive stock options and non-qualified stock options are treated differently for federal income tax purposes. Incentive stock options are intended to comply with the requirements of Section 422 of the Code. Non-qualified stock options need not comply with such requirements.

An optionee is not taxed on the grant or exercise of an incentive stock option. The difference between the exercise price and the fair market value of the shares on the exercise date will, however, be a preference item for purposes of the alternative minimum tax. If an optionee holds the shares acquired upon exercise of an incentive stock option for at least two years following grant and at least one year following exercise, the optionee's gain, if any, upon a subsequent disposition of such shares is long term capital gain. The measure of the gain is the difference between the proceeds received on disposition and the optionee's basis in the shares (which generally equals the exercise price). If an optionee disposes of stock acquired pursuant to exercise of an incentive stock option before satisfying the one and two-year holding periods described above, the optionee will recognize both ordinary income and capital gain in the year of disposition. The amount of the ordinary income will be the lesser of (i) the amount realized on disposition less the optionee's adjusted basis in the stock (usually the option price) or (ii) the difference between the fair market value of the stock on the exercise date and the option price. The balance of the consideration received on such a disposition will be long term capital gain if the stock had been held for at least one year following exercise of the incentive stock option. The Company is not entitled to an income tax deduction on the grant or exercise of an incentive stock option or on the optionee's disposition of the shares after satisfying the holding period requirement described above. If the holding periods are not satisfied, the

18

Company will be entitled to a deduction in the year the optionee disposes of the shares, in an amount equal to the ordinary income recognized by the optionee.

An optionee is not taxed on the grant of a non-qualified stock option. On exercise, however, the optionee recognizes ordinary income equal to the difference between the option price and the fair market value of the shares on the date of exercise. The Company is entitled to an income tax deduction in the year of exercise in the amount recognized by the optionee as ordinary income. Any gain on subsequent disposition of the shares is long term capital gain if the shares are held for at least one year following exercise. The Company does not receive a deduction for this gain.

A grantee of shares of restricted stock recognizes ordinary income on the date of receipt equal to the value of such shares (less any consideration paid by the grantee) unless the shares of stock are subject to a substantial risk of forfeiture. If the shares of stock are subject to a substantial risk of forfeiture, absent an election by the grantee to be taxed on the date of grant, then the grantee will recognize ordinary income when the risk of forfeiture lapses. The Company is entitled to an income tax deduction in the year the grantee recognizes income equal to the amount of income recognized by grantee.

PLAN BENEFITS

The Committee has full discretion to determine the number and amount of options to be granted to employees under the Plan, subject to an annual limitation on the total number of options that may be granted to any employee. Therefore, the benefits and amounts that will be received by each of the named executive officers, the executive officers as a group and all other employees under the Plan are not presently determinable. Details on stock options granted during the last three years to certain executive officers

are presented in the Summary Compensation Table.

REQUIRED APPROVAL

The Plan will be approved if the votes cast in favor of the Plan exceed the votes cast against it. Abstention from voting or nonvoting by brokers will have no effect since such actions do not represent votes cast by shareholders. Unless marked to the contrary, proxies received will be voted for approval of the Plan.

The Board of Directors recommends a vote for the approval of the Plan.

19

PROPOSAL 3: RATIFICATION OF APPOINTMENT OF AUDITORS

The Board of Directors, acting upon the recommendation of the Audit Committee, has appointed the independent public accounting firm of Deloitte & Touche LLP to be the Company's auditors for fiscal year 1997. As in the past, the Board has determined that it would be desirable to request ratification of its appointment by the Shareholders of the Company. If the Shareholders do not ratify the appointment of Deloitte & Touche LLP, the appointment of independent public accountants will be reconsidered by the Board. A representative of Deloitte & Touche LLP will be present at the Annual Meeting, will have the opportunity to make a statement if he or she so desires and will be available to respond to appropriate questions.

The Board of Directors recommends ratification of Deloitte & Touche LLP as auditors for the Company.

SOLICITATION OF PROXIES

All expenses of proxy solicitation will be paid by the Company. Solicitation of proxies will be made primarily by mail, but proxies may also be solicited personally, by telephone and by telegraph and by regular officers and employees of the Company who will receive no additional compensation for their services. Brokers or other persons holding shares in their names or in the names of nominees will be reimbursed their reasonable expenses for sending proxy material to principals and obtaining their proxies. In addition, the Company has retained Corporate Investor Communications, Inc. to aid in the Company's solicitation for an estimated fee of \$6,000 plus out-of-pocket expenses.

COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT OF 1934

Based solely on its review of copies of reports made pursuant to Section 16(a) of the Securities Exchange Act of 1934 and the related regulations, the Company believes that during fiscal year 1996 all filing requirements applicable to its directors, executive officers and 10 percent shareholders were satisfied.

OTHER MATTERS

The Board of Directors of the Company knows of no other matters that may come before the meeting. However, if any other matters should properly come before the meeting or any adjournment thereof, it is the intention of the persons named in the Proxy to vote the Proxy in accordance with their best judgment.

SHAREHOLDER PROPOSALS FOR 1998

Proposals for Shareholder action which eligible Shareholders wish to have included in the Company's Proxy Statement mailed to Shareholders in connection with the Company's 1998 Annual Meeting must be received by the Company at its principal executive offices on or before December 1, 1997.

NORDSTROM, INC.
1997 STOCK OPTION PLAN

1. Purposes of the Plan. The purposes of this 1997 Nordstrom Stock Option Plan (the "Plan") are to attract and retain the best available personnel for positions of substantial responsibility with Nordstrom, Inc. (the "Company"), to provide additional incentive in the form of stock options or shares of restricted Common Stock of the Company (the "Benefits") to employees of the Company or any parent or subsidiary of the Company which now exists or hereafter is organized or acquired by or acquires the Company, and to promote the success of the business.

2. Eligibility. Any employee of the Company or any parent or subsidiary of the Company may receive Benefits under the Plan.

3. Administration. The Plan shall be administered by the Compensation Committee of the Board of Directors of the Company, or a subcommittee thereof (the "Committee"). The Committee shall either (i) consist solely of two or more non-employee directors of the Company as defined in Rule 16b-3 under the Securities Exchange Act of 1934, as amended, or (ii) cause any director who is not a non-employee director to abstain from any action by the Committee related to granting Benefits to executive officers of the Company. The Board of Directors may also appoint one or more separate committees of the Board of Directors who may administer the Plan with respect to employees who are not executive officers of the Company.

4. Effective Date and Termination of Plan. Subject to shareholder approval, the effective date of the Plan is May 20, 1997. The Plan shall terminate when all shares of stock subject to Benefits granted under the Plan shall have been acquired or on May 19, 2007, whichever is earlier, or at such earlier time as the Board of Directors may determine. Termination of the Plan will not affect the rights and obligations arising under Benefits granted under the Plan and then in effect.

5. Shares Subject to the Plan. The stock subject to Benefits authorized to be granted under the Plan shall consist of 5,000,000 shares of the Company's common stock, no par value, or the number and kind of shares of stock or other securities which shall be substituted or adjusted for such shares as provided in Section 8. All or any shares of stock subject to Benefits which for any reason terminate may again be made subject to Benefits under the Plan.

6. Grant, Terms and Conditions of Options. Incentive stock options as defined in Section 422 of the Internal Revenue Code of 1986, as amended and non-qualified stock options may be granted by the Committee at any time and from time to time prior to the termination of the Plan to those employees of the Company or any parent or subsidiary of the Company who, in the Committee's judgment, are largely responsible through their judgment,

interest, ability and special efforts for the successful conduct of the Company's operations. However, no

participant shall be granted options in any year to purchase more than 50,000 shares of the Company's common stock as adjusted as provided in Section 8.

No participant shall have any rights as a shareholder of the Company with respect to any shares of stock underlying any option granted hereunder until those shares have been issued. Each option shall be evidenced by a written stock option agreement which will expressly identify the option as an incentive stock option or as a non-qualified stock option. Furthermore, the grant of an incentive option pursuant to the Plan shall in no way be construed as an alternative to the right of an optionee to purchase stock pursuant to any present or future grant of a non-qualified option under any of the Company's current or future stock option plans. Options granted pursuant to the Plan need not be identical but each option is subject to the terms of the Plan and is subject to the following terms and conditions:

6.1 Price. The exercise price of each option granted under the Plan shall be established by the Committee. The exercise price may be paid as determined by the Committee.

6.2 Duration and Exercise or Termination of Option. Each option granted under the Plan shall be exercisable in such manner and at such times as the Committee shall determine. Each option granted must expire within a period of ten (10) years from the grant date.

6.3 Transferability of Options. Each option shall be transferable only by will or the laws of descent and distribution except and unless the option provides for additional rights to transfer.

6.4 Other Terms and Conditions. Options may also contain such other provisions, which shall not be inconsistent with any of the foregoing terms, as the Committee shall deem appropriate. No option, however, nor anything contained in the Plan shall confer upon any participant any right to continue in the Company's employ or service nor limit in any way the Company's right to terminate his or her employment or service at any time.

7. Grant, Terms and Conditions of Restricted Stock. The Committee may grant shares of restricted common stock of the Company with such terms and conditions as may be determined in the sole discretion of the Committee. Grants of shares of restricted stock shall be made at such cost as the Committee shall determine and may be issued for no monetary consideration, subject to applicable state law. Shares of restricted stock shall be issued and delivered at the time of the grant or as otherwise determined by the Committee, but may be subject to forfeiture until provided otherwise in the applicable restricted stock agreement. Each certificate representing shares of restricted stock shall bear a legend referring to the risk of forfeiture of the shares and stating that such shares are nontransferable until all restrictions have been satisfied and the legend has been removed. At the discretion of the Committee, the grantee may or may not be entitled to full voting and dividend rights with respect to all shares of

2

restricted stock from the date of grant. No participant shall be granted more than 50,000 shares of restricted stock of the Company in any year, as adjusted as provided in Section 8.

8. Adjustment Upon Changes in Capitalization/Change in Control. The number and kind of shares of Company stock subject to Benefits under the Plan shall be appropriately adjusted along with a corresponding adjustment in the option exercise price, if applicable, to reflect any stock dividend, stock split, split-up or any combination or exchange of shares, however accomplished. An appropriate adjustment shall also be made with respect to the aggregate number and kind of shares available for grant under the Plan. If the Company or the shareholders of the Company enter into an agreement to dispose of all or substantially all of the assets or shares by means of a sale, a reorganization, a liquidation, or otherwise, all options shall become immediately exercisable with respect to the full number of shares subject to those options and all

restrictions on any shares of restricted stock granted under the Plan shall be immediately removed.

9. Withholding. To the extent required by applicable federal, state, local or foreign law, a participant shall make arrangements satisfactory to the Company for the satisfaction of any withholding tax obligations that arise pursuant to Benefits granted under the Plan. The Company shall not be required to issue shares until such obligations are satisfied. The Committee may (but shall not be required to) permit these obligations to be satisfied by having the Company withhold a portion of the shares of stock that otherwise would be issued to the participant or by delivering shares previously owned by the participant.

10. Amendment and Termination. The Board of Directors may amend or terminate the Plan as desired, without further action by the Company's shareholders, except to the extent required by applicable law.
